

NEW HAMPSHIRE SCHOOL ADMINISTRATORS ASSOCIATION

CHAMPIONS FOR CHILDREN

The New Hampshire School Administrators Association (NHSAA) is a private non-profit organization that seeks to provide support to the leadership of public education in NH, to offer high quality services to its members, and to support and promote public education in New Hampshire. As part of our mission, NHSAA regularly provides highly specialized services directly to individual public school districts in NH by completing an independent investigation and analysis of a school district's educational programs, a facility needs assessment, and developing educational specifications and facility options for a school district's student population. We often develop a prioritized listing of recommendations that effectively and efficiently utilize existing facilities, modify or renovate existing schools, and project the need for new facilities for a district's consideration. In addition, we may develop a description of the site needs necessary to accommodate the required or desired school program.

The following chart highlights a few of the studies that NHSAA has completed over the past few years and provides examples of NHSAA's specialized services, which may include, but are not limited to an independent demographic assessment of a school district's population and the creation of a K-12 student enrollment forecast.

School or School District in Alphabetical Order	Title of Report/Study	Month	Year
Allenstown School District	Update Assessment of Educational Facility Needs Pre K-8	November 10	2005
Amherst School District	Demographic and K-12 Enrollment Analysis	December 16	2005
Andover School District	Assessment of Educational Facility Needs K-8	January 3	2006
Auburn School District	Assessment of Educational Facility Needs Pre K-8	November	2002
Bedford School District	Assessment of Educational Facility Needs K-12	December	1999
Bow School District	Assessment of Educational Facility Needs K-12	February	2000
Candia School District	Assessment of Educational Facility Needs Pre K-8	November 25	2002
